

PRA1

Superior Flex Armored FTTX Premise Fiber (ONT Pigtails – Indoor/Outdoor Fiber Jumper)

Improving on Precision Group's wildly popular Indoor/Outdoor jumper offerings, the Superior Flex Armored Jumper offers more durability and flexibility. Made with the same Corning® LBL Bend insensitive glass as our Superior Flex PR1 series, these jumpers take protection a notch further with an inner steel lining and a Kevlar® jacket inside the UV resistant outer layer. Precision group stocks Superior Flex jumpers in SCA-SCA of 5, 10, 25, 50, 75, 100 or 150ft lengths. We will be happy to make custom lengths and custom connector combinations per your specifications.
