

# Cable Spool Caddy

The Cable Spool Caddy was designed to support the MFLEX-DB and ONT NID I/O Spool options. Using the Cable Spool Caddy allows for proper pulling direction to limit unwanted bending of the fiber during installation. Designed with RED color to prevent loss during install and includes stakes that can be used to route fiber around corners in yard.

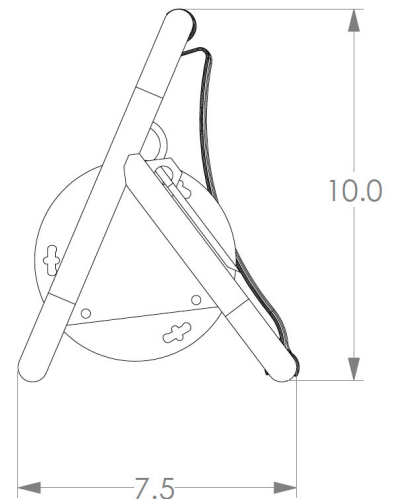

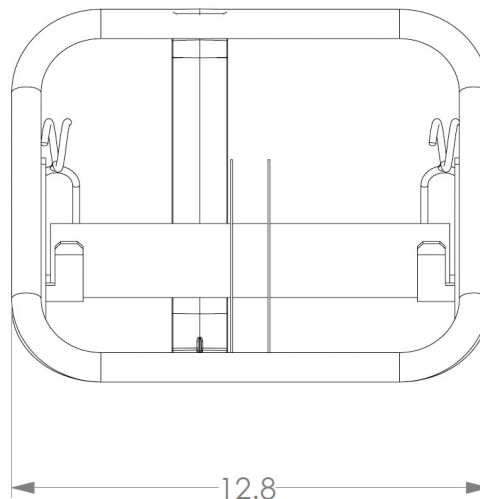

## FEATURES

HOLDS UP TO 2 SPOOLS

BRAKING SYSTEM TO PREVENT OVER BACKLASH

## SPECIFICATIONS

- PG Red to prevent loss
- Can hold 2 spools at once
